

K-LOVE definitely serves me as a resident of a local community by give me an alternate music station that is both positive and uplifting. It brings sunshine into each of my days. I believe K-LOVE servces a public interest by bring GOD into the lives of others who may not reach them. There are prayer request, family teachings for parents, support, awesome music and most importantly a way for GOD to reach millions in away that would be very slow without this media. If this station was replaced by an LPFM broadcaster providing other programing, it would hurt the millions of lives k-love touches each day with prayer, music, worship and a positive alternative, I beg you not to remove k-love from our listening ears. GOD BLESS YOU!
